

Premium Quartz sink

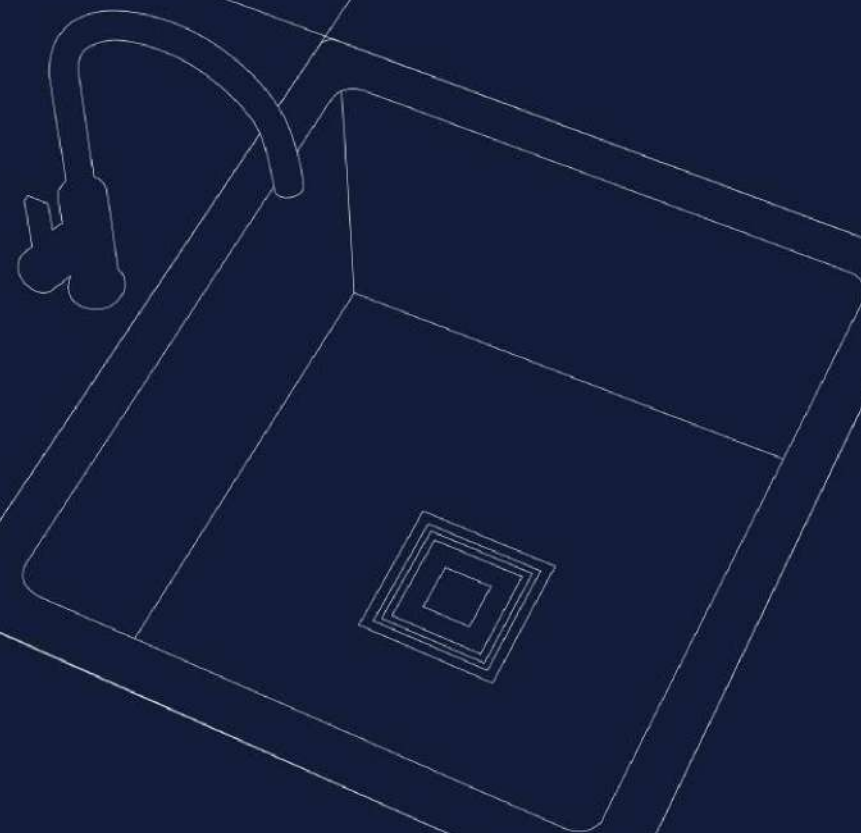

by

Designed contemporarily  
with absolute quality

We integrated years of invaluable operating experience and industry know-how into our "Luxury Sinks" series. We offer a line of kitchen sinks that are designed to reflect the newest contemporary lifestyles with world-class quality standards and innovative features.

The manufacturing facility is self-sufficient since it has its design capabilities, deep drawing presses, sheet metal fabrication lines, testing laboratory, and IT department.

We have an outstanding engineering and technical department and a top-notch R&D center. Our R&D work meets international standards.

The company holds a rich history as a leading designer and manufacturer of kitchen sinks, and its products are highly regarded for their quality and reliability.

**Premium**  
KITCHEN SINK

## Features

We offer a beautiful, durable, and reasonably priced sink that complements most countertop materials. Each of our sinks comes in dozens of shapes, sizes, configurations, colors, and matte finishes that complement any kitchen. Every piece is designed to be durable, long-lasting, hardwearing, and unique.
